

# Faridul Islam

## Full-Stack & Mobile Developer · Solution Architect

faridulccr@gmail.com | Bangladesh · Remote (Worldwide) | devfarid.vercel.app | github.com/faridulccr | LinkedIn

### SUMMARY

Full-stack engineer and solution architect specializing in multi-tenant SaaS, real-time systems, and cross-platform mobile. I ship production applications end-to-end on the Next.js · TypeScript · Node.js stack with React Native (Expo) for mobile — writing type-safe code, validating every boundary with Zod, and documenting APIs with OpenAPI. Level 2 Fiverr seller with a 4.8★ rating and 100% response rate, delivering for clients across the US, EU, and worldwide.

### CORE SKILLS

<b>Frontend</b>	Next.js (App Router), React 19, TypeScript, Tailwind CSS	<b>Backend</b>	Node.js / Express 5, REST + Zod, OpenAPI/ Swagger, Auth.js
<b>Mobile</b>	React Native, Expo	<b>Real-time</b>	Socket.io, WebSockets
<b>Databases</b>	MongoDB / Mongoose, PostgreSQL, Redis, Firestore, Supabase	<b>Payments</b>	Stripe (subscriptions + webhooks)
<b>Geospatial</b>	Mapbox, location services	<b>Tooling</b>	Git, GitHub Actions, FastAPI (Python)

### EXPERIENCE

#### Freelance Solution Architect & Full-Stack Developer

Current

##### Independent — Worldwide Clients

- Design and ship multi-tenant SaaS platforms end-to-end — architecture, backend, frontend, mobile, and production deployment.
- Build type-safe systems with end-to-end TypeScript, Zod-validated API boundaries, and OpenAPI-documented endpoints.
- Deliver real-time features (chat, notifications, live updates) with Socket.io, and subscription billing with Stripe.

Next.js 16   TypeScript   Node.js   MongoDB   Stripe   Socket.io   React Native

#### Full-Stack Developer — Level 2 Seller

2022 – Present

##### Fiverr — Remote

- Built and maintained custom web and mobile applications for clients across e-commerce, healthcare, and education.
- Gathered requirements, designed scalable solutions, and delivered production-quality code on schedule.
- Maintained a 4.8★ rating, 100% response rate, and a 9/10 success score across engagements.

Next.js   TypeScript   Node.js   MongoDB   React Native

### FEATURED PROJECTS

#### Geo-Local Services Marketplace

Multi-tenant SaaS

↗ [daveyspp.com](https://daveyspp.com)

- Full booking lifecycle with auto-confirm/cancel, real-time chat, Stripe subscriptions, and a dispute-resolution system.
- Next.js 16 App Router + a dedicated Express/Socket.io chat server, Mapbox geospatial search, and an admin dashboard.

#### Multi-Tenant AI Agent Platform

AI SaaS

↗ [zahara-v1.vercel.app](https://zahara-v1.vercel.app)

- Tenant-isolated platform for building and running AI agents, combining a Next.js frontend with a FastAPI service layer.

#### Pothik — Tutor-Matching Marketplace

Full-Stack

↗ [pothik.vercel.app](https://pothik.vercel.app)

- Next.js 16 + MongoDB marketplace with JWT cookie auth, email verification, Redis-backed rate limiting, and an admin review flow.

### EDUCATION

**B.B.A. in Accounting & Information System** — National University of Bangladesh, 2019
